If you're having sex...

it's important you use contraception and get regularly tested for Sexually Transmitted Infections. **The good news - it's easy and free for everyone!**

SCAN ME

If you think you might have an STI or have had sex with someone who has an STI, you can visit one of our many services to get tested for FREE or even order a test kit to your home.

Go to **www.findsexualhealth.org.uk** or scan the QR code, to get a test, find a clinic or get more information.
